1. Comment. Klosterneuburg is believed to be still occupied by the 16th Gds Recz Regt and the 8th (Inf) Bn.

2. Comment. The highest number of AA guns previously observed at the cantonment on the road to Blumberg were 16 x 85-mm AA guns and 32 x 37-mm AA guns.

the number of 85-mm AA guns increased. It is undetermined if the occupation of the cantonment has essentially changed.

3. Comment. The occupation of Margarethen am Moor has increased. The total of weapons observed, i.e., 8 x 85-mm AA guns, 8 x 37-mm AA guns and 6 AA machine guns, are indicative of a combined AA regiment of about 1 battery and 1 AA machine gun company.

4. Comment. The AAA unit quartered in the cantonment probably is the AA defense of Wiener Neustadt airfield. The departure of this unit observed on 4 August 1952 is believed to be only temporary.
